### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: Liquid crystal display with capacitive light shield between data line and pixel electrode

### ***Allowable Subject Matter***

Claims 1, 2-17 and 20-24 allowed.

The following is an examiner's statement of reasons for allowance: Regarding claim 1 (all other claims dependent), there is no prior art of record that teaches all the limitations of claim 1, particularly the combination of (A) a light-blocking shield layer disposed above the TFT at a position between the data line and pixel electrode; the light blocking shield having a fixed potential and being electrically connected to the fixed potential-side capacitor electrode of the capacitor (B) the light blocking layer comprising an aluminum upper layer and TiN lower layer (C) the light-blocking shield having two edges running substantially in parallel with each other, one edge including an indented portion that recedes inward (D) first relay layer connecting pixel electrode and light shield formed in the same layer as the light shield (E) second relay layer formed in a different layer above the substrate than the light-blocking layer connected to a pixel

potential side capacitor electrode and (F) the second relay layer covering the indented portion of the light blocking layer in plan view to provide a light shield at the indented portion. The prior art of record teaches various limitations of A-F separately however that alone is not enough to render the specific combination of A-F obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phu Vu whose telephone number is (571)-272-1562. The examiner can normally be reached on 8AM-5PM M-F.
